WELCOME TO FINE FLOORS

Founded in 2010 by the visionary Mahfoos Nadukandy, a revered name in the flooring industry, Finefloors embodies the essence of artistry and excellence. Nestled in the captivating landscapes of Kerala, our journey orchestrates a harmonious blend of passion, innovation, and seasoned proficiency. With an unwavering decade-long commitment, we have mastered the intricate craft of metamorphosing spaces into captivating showcases of style and endurance. Our handpicked selection of flooring solutions transcends conventions, ensuring that each footfall reverberates with opulence and resilience.

SERVICES

Laminated Wooden Flooring

Laminate flooring is a highly sought after flooring solution that masterfully imitates the natural elegance of real wood delivering a multitude of practical advantages

Engineered Wooden Flooring

It is a popular and versatile flooring option that combines the natural beauty of real wood with added durability and stability. These layers are typically bonded together under high pressure.

Solid Wood Flooring

It is a popular choice who value the timeless beauty, durability, and natural warmth that real wood provides. It's made from a single piece of timber and is available in a wide range of wood.

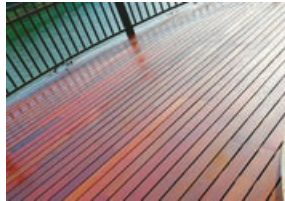

SPC (Stone Plastic Composite) Flooring

It is a type of rigid core vinyl flooring that has gained popularity in the flooring industry. It's known for its durability, water resistance, and ease of installation.

Bamboo Flooring

It is a type of flooring material that is made from bamboo. It has gained popularity as an environmentally friendly alternative to traditional hardwood flooring due to its sustainability.

Outdoor Wooden Decks

These are popular additions to homes and outdoor spaces, offering a versatile and aesthetically pleasing way to extend living areas into the outdoors.

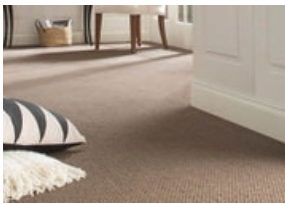

WPC Deck Flooring

It's made by combining wood fibers or flour with plastic polymers, resulting in a material that offers the natural look of wood while providing several advantages.

Luxury Vinyl Flooring

It is a type of resilient flooring that has gained popularity for its combination of aesthetic appeal, durability, and affordability. It is designed to mimic the look of natural materials like hardwood.

Carpet Flooring

It is a type of soft floor covering that is made from various materials such as wool, nylon, polyester, and more. It is commonly used in residential and commercial spaces for its comfort.

Sports and Wellness Flooring

It refers to specialized flooring systems designed to accommodate the unique demands of various physical activities. These flooring solutions are engineered to provide optimal performance.

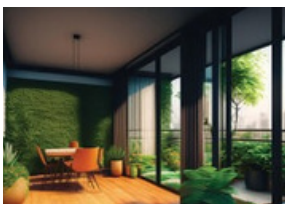

Non-directional Homogeneous Floor Covering

It refers to a type of flooring material that is uniform in composition throughout its thickness and does not have a distinct pattern or directionality in its design.

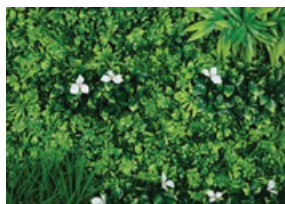

Multi Utility Heavy Duty Flooring

It typically refers to a type of flooring material designed to withstand heavy loads and high foot traffic. This type of flooring is commonly used in industrial and commercial.

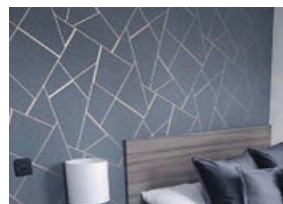

Artificial Grass

It's primarily used in outdoor areas where traditional grass might be difficult to grow and maintain, such as sports fields, residential lawns, commercial spaces, and playgrounds.

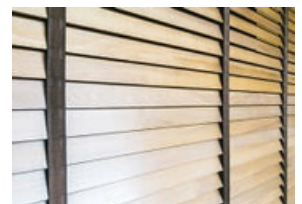

Vertical Garden

It is a type of garden that grows vertically against a wall or other vertical surface rather than horizontally on the ground. Vertical gardens are designed to make use of limited spaces.

Roll & Customized Wallpapers

It refers to decorative materials used to cover the interior walls of homes, offices, and other buildings. They are often used to enhance the aesthetic appeal of a room.

Window Blinds

These are window coverings made of slats or vanes that can be adjusted to control the amount of light. They are alternative to curtains or drapes and are often used in homes, offices, and spaces.

Fabric Curtains

Fabric curtains, essential elements of interior design, offer both practicality and style. They ensure privacy, regulate light, and enhance a room's ambiance.

Wall & Ceiling Paneling

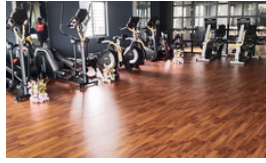

It involves covering interior walls with various materials to add texture, provide insulation, and create a unique atmosphere. It comes in a range of styles.
